Power & electricity

AZIMUT
e~MOTION

Power & Electricity
MODULAR ENERGY SOLUTION

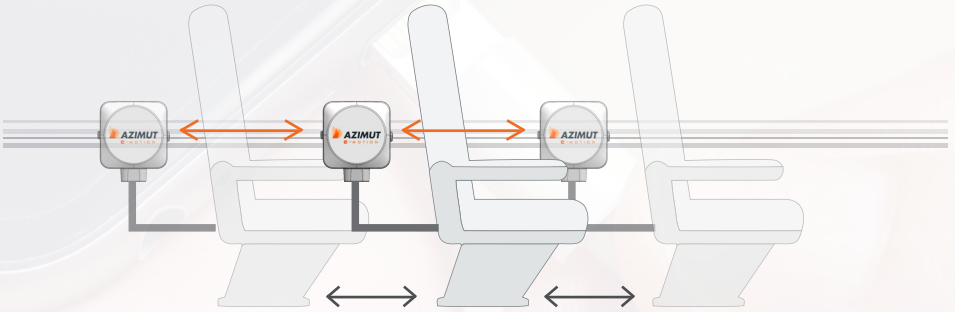
Unique solution in the market.

Easy installation

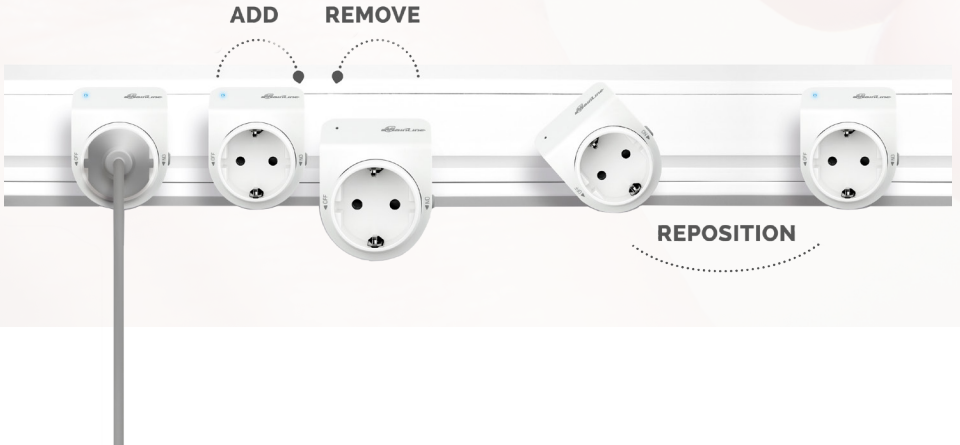
Save time and money

Flexibility

An innovative solution to offer **energy on board** based on an electric distribution rail that allows to provide power to your seats quickly, simply and safely, when and where it is needed.



1. A single cable feeds all the devices integrated in a seat: screens, sockets, etc.
2. Without additional installations
3. Reorganize and change of the seats easily
4. Simple installations in the PMR area
5. Add charge points on the same rail



ENERGY SOLUTIONS

Azimut e-Motion has a wide range of power suppliers for charging passengers' devices.
